RESEARCH INTEREST

My research interests focus on understanding molecular interactions and chemical phenomena underlying drug discovery through computational chemistry methodologies and accelerating these investigations using AI. Based on this fundamental understanding, I aim to explore and design potential drug candidates for pharmaceutical applications.

SKILLS

Chemistry

- Stereo-Organic Chemistry
- Organic Chemistry

-

Scientific Skills

-

Development Skills

- Python

-

RESEARCH EXPERIENCE

EDUCATION

SELECTED PROJECTS

SCHOLARSHIPS

AWARDS & HONORS

RESEARCH GRANTS

ADDITIONAL ACTIVITY

-

MILITARY SERVICE

()

- Completed mandatory military service.
